

SchoolMessenger Information

SchoolMessenger integrates with our student database, PowerSchool, allowing us to reach you by phone, email, or text message. If you want to receive our automated messages, we must have your current contact information in our database.

SchoolMessenger's SMS text messaging service is designed to enhance communication by allowing us to deliver important information to you by text message. In order to participate in this new text messaging service, you must indicate your willingness to receive text messages to your phone. The process is simple and only takes a few seconds to complete. Simply text **YES** to the following number: **67587**.

Your opt-in was successful if you receive a text message similar to the following: **You're registered for SchoolMessenger notifications. Reply STOP to cancel, HELP for help. Msg&data rates may apply. Msg freq varies. schoolmessenger.com/txt.** You will want to repeat the opt-in process for any wireless numbers that you wish to include. If you are uncertain as to whether or not you have already opted in, simply repeat the opt-in process. There is no harm in sending the opt-in message more than once.

In addition to performing the opt-in process, you'll want to make sure that we have your wireless number(s) in our PowerSchool database. If you haven't already provided that information to us, please contact your school office to provide your wireless number(s). You will not be charged for your SchoolMessenger service; however, you may incur a charge from your phone carrier for sending or receiving text messages. Please check with your wireless carrier for possible charges before you decide whether or not to opt-in for text messages.

If you have any questions, please feel free to contact your child's school office.
